

Total offsetting obligations for 2021 – 2023

Dear CORSIA Operators,

We hope all is well. This communication is to confirm that offsetting obligations for all operators for 2023 is zero. This is because the 2023 sector growth factor is zero. The publication can be found here: https://www.icao.int/environmental-protection/CORSIA/Documents/CORSIA%20Annual%20SGF%203ed%282024%29_web.pdf

This message confirms that your total offsetting obligations for 2021 – 2023 is 0 (the SGF for 2021 and 2022 were both 0). **As there are no offsetting obligations for this compliance cycle, there is no need for you to cancel emissions units or report on those cancellations to Transport Canada.** Transport Canada's CORSIA team has begun the process for a global exemption for the Emission Unit Cancellation Report reporting requirements for 2021-2023. We will let you know when this has been completed.

We also take this opportunity to request your help in keeping our CORSIA focal point list up to date. Please reply to this message with the name/s and email/s of those that the TC CORSIA Team should contact on CORSIA related matters, reminders, and updates. Should it be preferable to you, the key or first point/s of contact will suffice instead of all personnel who work on CORSIA. Thank you for your help.

Please let us know if you have any questions.

TC CORSIA Team
